WONDERGUL CURE OF CONSUMPTION !-Although Dr. Taylor's 'Balsam of Liverwort has found hundreds of advocates, and has produced so large a num-ber of testimonials in its favor. I cannot withhold my her of testimonials in its favor, I cannot withhold my small meed of praise. Being predisposed to consumption, both from peculiar formation and hereditary transmission, I tried every means to check this disease, and strengthen naturally a weak constitution. I spent two years at Piss, one in Rome, two in Florence, and an other in the south of France, seeking, meantime, the advice of the best physicians. Two years since I returned to this country in about the same situation as when I left it. I had seen in the reading rooms of Europe much said in favor of Dr. Taylor's Baisam of Liverwort, and, as soon as I arrived in this city, I used it. erwort, and, as soon as I arrived in this city, I used it, and in three months I was so well I concluded I could safely pass the winter here, and did so. I have used an occasional bottle now and then during the time, but m now in as good health as possible. My cough as wholly ceased, and my lungs have every feeling of h. h.

DR. GOODE'S CELEBRATED FEMALE PILLS.

These Pills are strongly recommended to the notice of the Ladies as a safe and efficient remedy in removeing those complaints peculiar to their sex, from want of exercise, or general debility of the system, obstructions, suppressions, and irregularity of the menses; at the same time, strengthening, cleansing, and giving tone to the stomach and bowels, and producing a new and healthy action throughout the system generally. They create appetite, correct indigestion, remove giddiness and nervous headache, and are eminently useful in those complaints which distress females so much at the "TURN OF LIFE." They obviate costiveness, and counteract all hysterical and nervous affections, likewise afford soothing and permanent relief in fluor albus, and in the most obstinate cases of chlorosis, or green sickness, they invari-ably restore the pallid and delicate female to health and

rigor.

These pills have gained the sanction and approbation of the most eminent physicians in the United States, and many mothers can likewise testify to their extraordinary efficacy. To married females, whose expectations of the tenderest pledges of connubial happiness have been defeated, these Pills may be truly esteemed a blissful boon.

They soon remove all functional debility, and if taken according to directions, obviate all morbid action.

DR. GOODE'S CELEBRATED FEMALE PILLS .- are for all the following diseases: Suppression, irregularity or re-tention of the menses, fluor albus, chlorosis or green sickness, costiveness, gravel, incontinuance of urine, nervous affections, hysterics, prolapsus uteri, or felling of the womb, and piles; also, pains in the side, chest, limbs, TRY DR. The Blood has hitherto been considered by Empiricks

and others, as the great regulator of the human system, and such is the devotedness of the adherants to that erroneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the primary sources from whence Life, Health and Vigor eminate, and vice versa, pain, sickness, uisease and death. Not so with Dr. Hunt, whose extensions sive research and practical experience so eminently qual ify him for the profession of which he has been one of the most useful members. He contends—and a moments reflection will convince any reasoning mind of the cor rectness of his views-that the stomach, liver, and asso ciated organs are the primary and great regulators o health, and that the blood in very many instances is de pendent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial ano-dynes usually prescribed, serve but as foils to cover the ravages of deeprooted maladies. Under these convictions at the expense of years of close application, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing, it is with knowledge of its being a radical cure in the various diseases already its being a radical cure in the various diseases arready enumerated, even if applied in the most critical cases, but he does not pretend to ascribe to HUNT'S BOTANIC PILLS a supernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up, HUNT'S BOTANIC PILLS have never been known to fail in effecting two very gratifying results, that of raising from the bed of sickness and disease those who tested their efficacy, and thus amply rewarding Dr Hunt for his long and anxious study to attain this per fection in the healing art

PAPER IN THE WORLD!!—bince the colablishment of ALEXANDER'S WEEKLY MESSEAGER, which, without exaggeration, now beasts of as
large a circulation, in every part of the Union, as any
other Journal published in this city or elsewhere, it has
been proverbially acknowledged by all who pationise it
as the largest and cheapest paper in the world! To render this truth more obvious to the public, and to place
competition at a still greater distance than it yet has
been, the Proprietor will commence a new volume at
the beginning of the year very considerably enlarged and
improved as regards its Typographical and Pictorial appearance, and the Literary reputation and interest which
will be introduced into its columns. In this latter respect
the first number issued in January, will convey a speciwill be introduced into its columns. In this latter respect the first number issued in Jannary, will convey a specimen of the zeal with which the Proprietor will prosecute his anticipated alterations! It will be printed on a DOUBLE SHEET twice the dimensions of any paper issued in Philadelphia—will contain all the choic est effusions of the English and American Annuals for 1840; and will comprise Sixty four columns of close print, presening as much reading matter in one paper as would fill a large Octavo Volume, and a variety of original prese and poetical contributions will be selected for publication on this occasion—besides, there will be introduprose and poelical contributions will be selected for publication on this occasion—besides, there will be introduced from Ten to Twenty Engravings illustrative of the most interesting topics which will be here brought together. The Publisher will commence the year with an Immense Edition, in anticipation of the extensive increase which will take place in his Subscription List—and he again renews his request to those who contemplate forwarding him their names to do so at once the plate forwarding him their names, to do so at once, that he may enter them in the *Mail Books* in proper order, to prevent confusion or the possibility of any mistake in transmitting the paper promptly to every one as soon as it comes from the Press!
